Allowable Subject Matter

1. **Claims 1-30 are allowed.**

2. The following is an examiner's statement of reasons for allowance:

As to claims 1, 13 and 19, the prior art fails to teach a method and an apparatus for searching a longest prefix match wherein the method and the apparatus comprise the steps and components as disclosed in claims 1, 13 and 19, and in particular wherein a single search is performed by executing a plurality of search instances in parallel, wherein each search instance searches a different sub-range of the new search area.

As to claims 2-12, 14-18 and 20-30, those claims are allowed by the virtue of their dependency on claims 1, 13 and 19 respectively.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The Prior Art

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- **Turner et al (US Patent No. 6018524)** disclose method and apparatus for searching a longest prefix match, comprising multiple bins wherein each bin represents different range of a search. This prior art however fails to teach carrying out a single search by searching initial bins in parallel.
